WEDNESDAY, JUNE 30.

Elections were held yesterday in Washington territory under the local option law. There was a large vote polled, but little excitement. Prohibition was defeated in the city of Seattle by a majority of 1030. All the larger towns in the territory, except LaConner, Chehalis and Centralia give heavy majorities against prohibition.

Sir John Millais, the painter, is engaged on another incident of the night of St. Bartholomew. His picture depicts the interior of the church with three figures—a soldier, a priest and a sister of mercy. The ecclesiastic is inciting the soldier to go forth to massacre, while the sister has thrown herself at their feet, and is pleading for the protestants.

Chicago elevators are at present stored with 7,864,835 bushels of wheat, 2,749,309 bushels of corn, 313,115 bushels of oats, 14,038 bushels of rye and 23,504 bushels of barley, making a grand total of 10,964,801 bushels, against 10,929,463 bushels a week ago and 16,531 546 bushels at this period last year. Visible supply of grain in the United States and Canada on the 26th instant: Wheat, 29,488,687 bushels; corn, 9,457,957 bushels; oats, 2,581,318 bushels; rye, 283,901 bushels; barley, 239,814 bushels.—*Chicago Journal*, 29th.

"For thirty of the thirty-one years Justin S. Morrill, of Vermont, has been in congress," writes the New York World's Washington correspondent, "he has not missed a meeting of his committee. Thoroughly conscientious in his idea of the duties of his position, he has been as regular in his attendance on the sessions of the two houses of congress as the sun. Mr. Morrill is now 76 years of age, and until recently he has had remarkably good health. About a week ago he took to his bed with an attack of inflammation of the bowels. His illness, on account of his advanced years, has been dangerous, and while within the last two days he has improved slightly, he is not yet out of danger."

The Salem, Oregon, Weekly Talk of June 17, says that in the next state senate of that state there will be nineteen republicans and seventeen democrats, and that the house of representatives will be republican, contrary to previous reports, the republicans having thirty-three members in the counties heard from and the democrats twenty-six. Grant county, not yet heard from, being conceded to the democrats, the legislature will have on joint ballot fifty two republicans and thirty eight democrats, giving a republican majority of fourteen votes, the same as in the legislature last chosen.

The commissioners having charge of the erection of a monument over the grave of General Israel Putnam at Brooklyn, Windham county, Connecticut, have decided to build the monument on the postoffice site, near the Mortlake house. The site is the gift of Thomas S Marlor, and the postoffice building will be moved back some eighty-five feet to accommodate the structure. The commissioners have decided upon an equestrian statue, if one can be provided within the appropriation of $10,000. General William H. Putnam, a grandson of the Revolutionary hero, has offered to move the body of his ancestor from the cemetery in Brooklyn to the site selected by the commissioners.

In his speech Monday, at Liverpool, Mr. Gladstone quoted from the ballad "Chevy Chase." "The child unborn shall rue the hunting of that day," and exclaimed: "If idle and shallow pretexts bewilder the minds of the people, or if power, wealth, and rank overbear the national sense, the child unborn shall rue the voting of that day! I entreat you to resolve that the civilized world shall no longer assert that Ireland is England's Poland, and to determine that England shall no longer have a Poland. She has had it long enough. Listen to prudence, courage, and honor. Ring out the old, ring in the new! Ring out the notes of memory and discord! Ring in the blessed reign of a time of peace."

The Mark Lane Express, of London, in the review of the British grain trade during the past week, says: Welcome summer weather has had a marked effect on the crops, but it came too late to save a large proportion of the cereals. The outlook, except for the best wheat district, is very discouraging. Trade has been in favor of buyers. The sales of English wheat during the week were 37,795 quarters at 31s 1d, against 34,740 quarters at 33s 8d during the corresponding period last year. The flour trade is deedingly dull. Foreign wheats have favored buyers. Foreign flour is cheaper, especially American. Twenty-seven cargoes of wheat arrived; seven cargoes were sold, three were withdrawn and fourteen remained, including nine American. In the trade forward there is no inquiry. At to-day's market wheat was dull and 6d lower. Flour was dull and 6d lower.

The New York Sun heartily commends the Lake Shore railroad company in resisting the demands of the strikers in Chicago, and says: "The men whose discharge was demanded have been in the employ of the company for terms varying from ten to sixteen years. They have discharged their duties faithfully, their sole offense being that they refused to join the spitchmen's union and go on a strike when ordered. Had the company abandoned them at the demand of the union under such circumstances, it would have richly deserved to have its line fall into the hands of mobs and rioters permanently. It is about time for the assertion of a little down right, old fashioned American independence in the country once more, if the right to hire men at prices and on terms mutually agreeable to employers and employes does not exist, our boasted American liberty is sham, and a new declaration of independence is called for".

The sharpest, spiciest bit of general criticism that has appeared for many a day—a dash at men and things, science, literature, politics and economics—comes now from the pen of "Gail Hamilton," and counts one of the contributions to the July North American Review, the keenest, most vital number of that magazine, perhaps, that has ever been published. Under the head of "words", the 'Gail' analyzes a little of everything, and as words are really the "thought-terms" of things, her method is at once fascinating and logical.

"I recognize but one mental acquisition," said President Eliot, as an essential part of the education of a lady or gentleman—namely' an accurate and refined use of the mother tongue." Gail Hamilton insists that very few people, nowadays, have the "essential part" of an education. Nor need America "bite the dust" before England in the matter; for "Frederic Harrison, who is a graduate of Oxford, writes as recklessly as Prof. Sumner, who is a graduate of Yale; and Rev. William Everett, who laid two countries under contribution to embellish his mind, is an equally solemn warning to both." In referring to Mr. Gladstone's defense of Genesis against the scientists, and "Gail" admits that no leading American statesman knows enough *not* to write on Genesis. Prof. Huxley, too, comes in for a "warning". He has endured the misery of Ireland for many years. Starving, struggling, cursing, perishing, England has dragged Ireland chained to her feet and clogging her race for generations, and Prof. Huxley has "kept carefully out of the political field;" but now that one has risen, full of years and honors, to deliver her from the body of this death, Prof. Huxley calls two worlds to witness that the act is one of "cowardly wickedness." In the contemplation of this expression, Gail Hamilton naturally enough exclaims: "Truly the ways of culture are inscrutable."

It is Prof. Sumner, of Yale college, however, that that the terrible American girl "goes for" with full intent to do mischief. "He represents a class whose lowest ranks are indeed impossible, but from whom the best work and the best results may come. His style is incisive, vigorous and well suited to clear thought and arrogant, but with a certain charm of youthful strength in its arrogance. If its possessor would but lend himself a little while to the study of verbal science; would discipline his exuberant manhood by stooping to conquer the meaning, the use and the weight of words, political science would be the gainer, whatever might become of protectionism or free trade. Logical thought, on related facts, is the one thing needful to political dogma, and accuracy of words is at once source and offspring of logical thought."

Gail Hamilton picks up Prof. Sumner on the point of a needle. But the needle is bigger than a pitchfork, and he is tossed around on it as helpless as though he had lodged on the snout of a virgin rhinoceros.

Evansville.

—Mrs. P. H. Noel went to Oshkosh last Thursday to be gone a few days.

—John Finnegan, who a few years ago lived with M. McCarlel in the town of Porter, was killed by the cars in the northern part of the state, his remains were brought to this place on the Saturday morning train.

—A number of the G. A. R. boys attended the reunion at Brodhead last week, all reported as having a good time.

—The parties who visited the Geogebic Iron range returned last week and are satisfied that all who have invested in the mine will make well on the investment.

—Evansville will be one of the cities that don't celebrate the fourth.

—C. R. Lathrop, of Delavan, was in town the first of the week.

—The Magnolia ball club played the Evansville club last Saturday. The score stood 20 to 22 in favor of Magnolia.

—Mrs. Lewis Spencer started for New York state Thursday night on a visit.

—The dry weather is injuring the tobacco crop badly, and the crop will be late, a great deal not having been set yet. Corn and small grain needs rain very much.

—The change of time in the morning and afternoon train gives a whole day in Janesville, train leaving at 8:25 a. m. and returning at 1:36 p. m. and 7 p. m.

Now Again Another Hartford Man Wins.

Occasionally a Hartford man is a winner, and it is likely to be made in The Louisiana State Lottery. Only a short time ago a lad named Duffy drew $5,000, and the money was promptly forwarded to him. And now Benjamin F. Prouty, a bookkeeper in Gold street, is the winner of one-fifth of ticket No. 84,514 which drew one of the fourth capital prizes of $6,000. It was in the drawing of May 11, and to-day he received his share, $1,200. A few years ago the same man drew $2,000, and was promptly paid. He may be considered a lucky man.—*Hartford (Conn.) Times*, May 26.

THE POSTAL CLERKS.

NOT DAUNTED BY THE RECENT WHOLESALE DISMISSAL.

Report That a Crisis Is at Hand and a Big Strike Looming—Situation on the Lake Shore—A Shot at a Train-Wrecker—An Injunction from Uncle Sam.

INDIANAPOLIS, June 30.—The opinion is general in this division of the postal service that several hundred postal clerks will go out next week. The executive committee will meet Friday, and there seems to be no doubt that the resignations in its keeping will be promptly forwarded to the postmaster general. All of the members of the brotherhood in this division feel especially bitter toward the chief head clerk in this city, and they are indulging in some pretty harsh criticisms, alleging that he wormed himself into their confidence, and used his position to betray them. This feeling led to a spirited scene at the depot between Head Clerk Wolfe, of the Pittsburg & Western, and the local chief head clerk, in which the former was outspoken in his condemnation.

Now it is stated that a majority of the executive committee were included in the dismissals the other day, and from this it is argued that there is no doubt that all the members will be ordered out. It is further stated that the head clerks have resolved not to "double" their runs to fill out the breaks caused by the dismissals, and this will probably precipitate a crisis, even if the executive committee is slow to act. It is believed that the postal authorities are anticipating a break, for within the past few days, it is reported, several assistant clerks who were dismissed for "cause" have been approached with a proposition looking to their re-employment as clerks. Trouble of some kind may be anticipated in this division, also the Sixth, and possibly it may extend wherever the secret organization exists.

A committee will be selected to visit Washington and wait on the postmaster general for the purpose of procuring from him a definite statement as to what the clerks may expect in future as to their official tenure. An officer of the brotherhood states that this committee will surely be sent, despite the action already taken by the department in removing clerks, and the intention of the organization will not be changed, even should further removals be made before the meeting of Friday.

RUNNING UNDER PROTECTION.

Lake Shore Freight Trains Still Moving—A Reckless Striker Shot At.

CHICAGO, June 30.—Freight traffic on the Lake Shore & Michigan Southern railroad was resumed Tuesday in earnest. In and out-bound trains were moved as rapidly as the occasion demanded, but all were under strong police protection. No violence or interference was attempted by the strikers or their sympathizers. Here and there, at a distance of two or three blocks, from the Root street and Forty-third street crossings, small groups of strikers and their friends gathered and quietly discussed the outlook, but they did not venture nearer. Every out-bound train was escorted by Pinkerton men armed with Winchester rifles, as far as the Indiana state line. The switchmen of other roads have decided not to place any embargo on Lake Shore freight out of sympathy with the strikers. The Wabash, the Chicago & Eastern Illinois and the Grand Trunk handled Lake Shore freight as usual. President Newell expressed his satisfaction with the situation, so far as it had progressed, but said he would not consider the strike at an end until trains could be run without the protection of rifles and without the fear of malicious interference with property.

Late in the afternoon, just as a long train of empty stock cars had left the Lake Shore track and entered the territory of the stock yards, a man made a dash at a switch, threw it, and in an instant several cars were derailed. A Pinkerton officer shot at the train wrecker, but without effect. The man escaped. No further attempt was made to interfere with the train, and the derailed cars were soon restored to the track and proceeded to their destination.

The long-threatened bill for the injunction of the federal court against the strikers was filed in the United States circuit court Tuesday by Isham & Lincoln, solicitors for the Lake Shore & Michigan Southern Railroad company. A temporary restraining order was secured on it from Judge Gresham, who set the hearing for a permanent injunction for July 7. The injunction restrains all of the defendants, their agents, and employes, from the commission of further acts of the character described in the bill and from interfering with or in any wise disturbing the complainant, its agents, etc., in the prosecution of its business as a common carrier of freight and passengers between the states, and from interfering with any of the complainant's trains or engines, switches, cars, tracks, engine-houses, freight-houses, yards, and depots, and all other property used by the complainant in carrying on its business.

CAN NOT UTTER A WORD.

A Young Lady Stricken Dumb Without a Moment's Warning.

PROVIDENCE, R. I., June 30.—Last Saturday evening, while Miss Evelyn C. Smith was talking with a gentleman named Brown, she was stricken dumb. She was looking over a map, and asked him where Lawrence, Mass., was. He jumped up quickly from his chair and said, "Oh!" quite loudly, laughing at her. She laughed aloud in return, but the laughter gradually died away. The girl grew pale and tried to speak, but she had evidently lost the power of using her tongue and vocal organs. She was interviewed by a reporter, Monday, but could say nothing. In answer to the question of the sensation she wrote on a piece of paper: "I feel, as nearly as I can explain, as if I were in a vise." She also complained of pains in her eyes and a burning sensation in the ears, and of feeling weak. According to the statement of her mother, the girl is apparently possessed of a supervitalized temperament, which seems to have always subjected her organization to nervous sufferings. About one year ago she fainted in a thunderstorm, and on regaining consciousness was unable to speak, and for eight weeks her inability to talk continued. Then gradually she uttered articulate sounds, whispered sentences, and gradually began to speak. Her mother seems to take this last affliction as a matter of course, and apprehends no serious trouble from it.

A Jockey Nearly Killed.

CHICAGO, June 30.—In the fourth race at Washington Park Tuesday, the horse Forest broke a leg, throwing Withers under him. Kansas, ridden by Covington, ran into Forest and both horses and jockeys were rolled up in a bunch. Covington was not seriously injured, but Withers was carried to the club house in an unconscious state. He was not fatally injured, however. Forest was shot and killed on the track.

IN EARTH'S EMBRACE

LOVING HANDS LAY THE REMAINS OF JUDGE DAVID DAVIS.

The Final Tribute Paid to the Distinguished Dead by Humble Neighbors and Those in High Places—Bright Flowers Add Their Perfume to the Incense of His Fellow Citizen's Honor.

BLOOMINGTON, Ills., June 30.—At 3 o'clock Tuesday afternoon the remains of David Davis, the distinguished citizen in life, were buried. There were not only representative people from high places in the land in attendance to revere his memory, but the honest, plain and untitled tiller of the soil came in his unostentatious manner with the little ones of his home and took a place in the procession. It was a touching scene, and it was an eloquent panegyric of itself on the illustrious dead's good qualities when he was of the living.

The day was as peaceful as the death of the jurist had been. The city was appropriately draped. A special train at noon over the Illinois Central brought Governor Oglesby and staff and 100 lawyers from Springfield, Decatur, and Clinton. Judge Gresham telegraphed from Indianapolis that he could not come, owing to the serious illness of his wife, and Col. R. B. Latham, of Lincoln, was substituted.

The remains lay in state in the west parlor of the Davis mansion from 9 a. m. to 2 p. m., and there was a constant stream of visitors to take a last look at the beloved face. The features were calm and peaceful, and much less wasted than had been generally expected. He was greatly reduced in flesh before death, but not painfully emaciated. The casket was cedar, draped with black cloth and fringe. There were eight heavy silver handles, and a massive plate, bearing the inscription: "David Davis, Born March 9, 1815, Died June 26, 1886."

The floral offerings were both beautiful, numerous, and appropriate, many being the gifts of his old friends and neighbors, while others were bestowed by prominent men of the nation. Mr. and Mrs. Senator Logan presented a broken urn; Robert Lincoln, gates ajar, and Senator Cullom, a cross. Resting on the casket were a wreath and star from the family, and at the head a floral pillow with the word "Grandfather" traced across it in purple immortelles. The chandelier, under which the remains lay, was hung with smilax. There were many other beautiful offerings, including a lovely combination of feather palms from Mrs. Justice Hunt, an exquisite open book from Mr. and Mrs. John Jones, Springfield, and a basket from the children of the State Soldiers' Orphans' home.

At 2 o'clock the public vacated the mansion, giving the family, relatives, and immediate friends the opportunity for seeing the remains for the last time. The services were conducted by Rev. W. G. Pierce, of Champaign, who read the burial services and made a few remarks, and Rev. Frank S. Bush, pastor of the First Presbyterian church, who offered prayer and spoke briefly of the deceased. The music was conducted by Frank Mueller and five singers, who rendered a few selections, favorites of the distinguished dead.

After the services at the house the cortege moved to the cemetery in the following order. Carriages containing, first, Judge Drummond, Governor Oglesby, and Senator Logan; second, Judge Scott, Jesse W. Fell, Leonard Swett, and Hamilton Spencer; third, C. H. Moore, Henry W. Bishop, Judge Blodgett, and Judge Caton; fourth, Judge Weldon, Norval Dixon, D. M. Funk, and R. E. Williams; fifth, Gen. McNulty, Gen. Singleton, of Quincy, William Griswold, and Norman Williams. Following the above, the honorary pall-bearers, were two carriages containing the acting pall-bearers. The first contained Robert T. Lincoln, A. E. Stevenson, James S. Ewing, and D. T. Littler; the second, D. H. Ferrigo, F. D. Orme, L. G. Fisher and Simon Burr. Following these were the carriages of relatives, intimate friends, congressmen, state officers, military officials and citizens generally. All business was suspended throughout the city as the solemn cortege passed through the streets. The services at the grave were brief and simple.

The Sangamon county bar was largely represented at the funeral. Chicago was largely represented here. Besides the distinguished lawyers sent here by the bench and bar of the Garden City there was a number of prominent citizens.

BEECHER ARRIVES IN LONDON.

His Reception by Rev. Parker—Opinion of Gladstone's Oratory.

LONDON, June 30.—The Rev. Henry Ward Beecher arrived in this city from Liverpool Tuesday. He was met at the railroad depot by the Rev. Dr. Joseph Parker, the pastor of the City Temple, and his wife. Dr. Parker's greeting to the prominent American divine and his wife were of a most affectionate nature. Dr. Parker led Mrs. Beecher to his carriage which was in waiting, patting her hand fondly all the while. Mr. Beecher, on the other hand, was more reserved and led the wife of the Rev. Dr. Parker to the vehicle in a most decorous manner. The party were as once driven to the residence of the Rev. Dr. Parker at St. John's wood. The English system of luggage carrying seemed to greatly puzzle Mr. Beecher, and this in turn seemed to greatly amuse Mr. Parker.

In an interview with a reporter for The Post, Rev. Henry Ward Beecher expressed himself as delighted with the powerful speech delivered by Gladstone at Liverpool Monday night. Referring to his exchange of compliments with Gladstone after the speech, Beecher said he told Gladstone that he was too much overcome by the power and eloquence of the premier to be able to express his appreciation of the address in words. The speech, he said, had given him a greater insight into the affairs of Ireland than he ever had before. To this Gladstone remarked that he considered Beecher's words highly complimentary, inasmuch as he thought him as capable a judge of the merits of an address or its author as any man he had ever met.

A Rumor About Halstead.

CINCINNATI, June 30.—The Post having published a rumor that Murat Halstead was soon to become either editor-in-chief or associate editor of The New York Tribune, Richard Smith was interviewed on the subject, and said: "Oh, there is nothing in it. He has too great interests right here to admit of such and undertaking. Why, Halstead in The Tribune editorial department would be like a bull in a china shop. He would knock things all to pieces. He is in New York simply on account of Mr. Lloyd's sickness. He is busy fixing up the New York office and will be home in a few days."

Fight with Mexican Horse-Thieves.

GALVESTON, Tex., June 30.—A News special from Uvalde says: "Tuesday Deputy Sheriffs T. P. Baylor and G. R. Nimms had a desperate fight with Mexican horse-thieves at Cline station, some twenty miles west of Uvalde. One Mexican was killed and another wounded. The officers' clothing was riddled with bullets, but they escaped uninjured.

Vis, Vita Propria. What is it? Scientists, Doctors, Lawyers and Ministers stand awe stricken and dumb-founded at the miraculous healing power possessed by Dr. Miner, whose portrait appears above.

Dr. Clark A. Miner,

was born in Allen, Allegany Co., N. Y., in 1802, of English and Scotch parentage. Longevity is marked on all his ancestry. With nerves as sensitive as the magnetic needle and muscles as strong as steel, with a well balanced frame to support them, it is apparent that he is a proper subject to possess this magnetic power in excess of other men. It is charged against us that we get this wonderful power from an electric battery worn upon our body and arms. This is false. We receive this power from our creator. You ask, what is it? We answer we don't know any more what it is than you do. We are daily healing the sick. All functional disturbances are controlled like magic by the laying on of hands, no medicines. The lame throw away their crutches and walk; life's current again courses through the palsied and withered limbs; the bloom of health flushes the pallid cheeks that death marked as its own, by the magicial touch of a man's hand.

Since the Savior of man healed the multitudes, nothing has equaled the wonderful and miraculous healing of this phenomenal man. It does not require weeks or months to prove to the afflicted that they will be benefitted, results are manifested at once We care nothing for the cause of your ailment. We treat conditions only and all functional abnormal conditions are controlled and permanently cured without medicines. Dr. Miner has leased Mrs. S. H. Shelton's residence for the summer where he can be consulted from 9 to 12 m. and 1 to 5 and 7 to 8 p. m. Will make calls outside of office hours: jun30-1m

CONGRESS WILL HAVE TO CONTINUE LAST YEAR'S APPROPRIATIONS

As a Result of the Violent Windstorms in the House—A Veto Strikes an Obstruction—The Senate Backs Down on the Mail Subsidy—Political Tilt in the Senate—Official Gleanings.

WASHINGTON CITY, June 30.—Some amendments reported by the senate appropriations committee to the legislative, executive and judicial appropriation bill, increasing the clerical force in the state department, were the occasion in the senate Tuesday of a discussion, in which the anomaly was commented on by Republican senators that a Democratic head of a department could not get the necessary increase from the appropriation committee of the house, but was forced to come to the appropriation committee of the senate for it. Hale referred to it as a publicly proclaimed confession on the part of those who had been arraigning the Republican party for extravagance that there was no foundation for the charge.

Cockrell declared that the necessity for the increase came from the charitable desire of the secretary of state to retain in pay an old superannuated public servant who was a Republican. [Referring to Assistant Secretary Hunter.]

Dawes denied that this old official was a Republican. He had been appointed by a Democratic administration, and had been retained by Democratic and Republican administrations alike.

Ingalls suggested that when the secretary of state would read The Record he would say [in reference to Cockrell's remarks] "Heavens, save me from my friends. I will defend myself against my enemies." He had been placed by that senator (the champion of the administration) in the attitude of not having nerve enough to discharge "a superannuated old clerk." By the grace of God, aided by some other mysterious influences, Grover Cleveland had been elected president, and was now the executive head of the United States of America. He was assisted in the house of representatives by a majority of his own party. He and his associates in the house held the purse and held the sword, and were responsible to the people. So far as he [Ingalls] was concerned, he did not propose to lend any sanction whatever to the allegations of extravagance on which the Republican party had been overthrown in 1884.

Cockrell said that the taunts made against the administration fell harmless. The administration needed no defender in the senate. The people of the United States would live to bend their knees in everlasting thankfulness to Almighty God that Grover Cleveland had become president of the United States. He was an honest man, a brave man, a true man. He was doing all that any one mortal being could do to give the people of the United States an honest, fearless, economical and constitutional administration.

ONE VETO SAT DOWN UPON.

The Des Moines River Lands Bill Passed—End of the Mail Subsidy Contest.

WASHINGTON CITY, June 30.—After a personal explanation by Camden denying a newspaper charge that he had said $50,000 would be paid for each of six votes necessary to carry the senate for Palne of Ohio, the senate resumed consideration of the veto of the Des Moines river land bill, and after a short discussion the bill was passed, the veto notwithstanding, the nays being: Brown, Butler, Colquitt, Edmunds, Evarts, Gray, Hampton, Hawley, McPherson, Miller, Platt, Ransom, Vance, Vest and Whitthorne. There were 34 yeas. Conference reports were agreed to: On the army bill, the bill to make the Pacific roads pay for the survey and selection of their lands, the agricultural appropriation, and the postoffice appropriation. In the latter case the senate recedes from its important amendments, including the mail subsidy. The legislative, executive and judicial appropriation bill was then taken up and a political discussion ensued, at the conclusion of which it was stated that a resolution continuing the appropriations would be necessary because, owing to the delay on appropriation bills in the house, several of them would not have been passed and approved. The senate then adjourned.

The conference reports on the pension, postoffice, army and agricultural appropriation bills were submitted to the house and agreed to, and the debate on the sundry civil bill resumed, the discussion taking a political and personal turn, but no changes were made in the bill. Springer having offered an amendment increasing the appropriation for detecting public land frauds to $200,000, Hiscock said the amendment was made to increase patronage, which Springer denied, but withdrew the amendment. Perkins of Kansas charged Weaver of Iowa with being the paid attorney of the Oklahoma "boomers," and Weaver wanted to know if Perkins was not a railway attorney. Both gentlemen indignantly denied the imputations. Without much progress on the bill, the house adjourned.

AN ABLE HOUSEKEEPER.

Discussing White House Furniture—Randall's Compliment to Mrs. Cleveland.

WASHINGTON CITY, June 30.—During the consideration of the sundry civil bill in the house, Tuesday, Hepburn of Iowa criticised the items appropriating an aggregate of $20,000 for new furniture for the executive mansion, for the care of the greenhouse at the White House, and for general incidental expenses. What, he asked, could the present head of the administration, wedded as he was to Jeffersonian simplicity, want with $20,000 for furniture and flowers. The president would not tolerate such useless expenditure. It was known that when he nerved himself to the thankless duty of vetoing the pension bills of sixty destitute soldiers or widows, he was constrained by his official oath, constrained by his official duty and forced by Jeffersonian simplicity. Yet those pension bills aggregated less than $7,000, one-fourth of the sum which this committee was trying to force upon him to expend for furniture and flowers.

Randall remarked that the bill appropriated $16,000 for repairs and furniture for the executive mansion, while in 1885 $20,000, and in 1884 $25,000, had been appropriated for a like purpose, so that the committee was in the line of Jeffersonian simplicity. Next year, perhaps, it would do better. The house, said Randall, should remember that there was a very able housekeeper at the White House now.

BACKWARD APPROPRIATIONS.

Senators Make Reflections on the Tardiness of the House.

WASHINGTON CITY, June 30.—In answer to a question by Plumb in the senate Tuesday Allison said he thought the two houses would be obliged to pass a joint resolution extending the appropriations of the current year until the legislative bill, the naval appropriation bill, the sundry civil bill and the District of Columbia appropriation bill should become laws.

Edmunds inquired when the legislative bill had reached the senate from the house.

Allison—On the 17th of June.

Edmunds—Six months after the senate met, and within seventeen days of the time when the annual appropriations run out.

Allison—Yes. The most important appropriation bills were not sent here until the month of June; and whatever responsibility there is for having to pass a joint resolution extending the appropriations does not rest on the senate.

The Post Tradership Inquiry.

WASHINGTON CITY, June 30.—Indian Commissioner Atkins was examined Tuesday by Senator Platt's special committee to inquire into the appointment of Indian post traders, Mr. Atkins said the reason he had refused to appoint a number of men recommended by senators, representatives, etc., was that there were charges against them. He permitted traders to make a profit of from 20 to 25 per cent., according to the goods sold. He was willing to furnish the committee all the papers in his office relating to charges against traders and correspondence on the subject of appointments.

A Horse-Shoe for Good Luck.

WASHINGTON CITY, June 30.—Representative Sowden of Pennsylvania, Tuesday presented to the president, as a wedding present, a fine steel horse-shoe, which was made by Mr. John Schaadt, of Allentown, Pa., and intrusted to Mr. Sowden for delivery. On one end of the shoe are the initials "G. C.," and on the other "F. F. C." In the center is the word "Gluck," which, in German, means good luck. When Mr. Cleveland was nominated for the presidency, Mr. Schaadt sent a similar horseshoe to him, but the initials "F. F. C." were not on it.

Morrison on Randall's Tariff Bill.

WASHINGTON CITY, June 30.—Morrison says that Randall's tariff bill will increase customs receipts more than $1,000,000 and decrease internal revenue receipts at least $30,000,000. When asked what would be the fate of the bill in the ways and means committee, he said he did not know, but promised that the committee would treat it as it had treated his bill—take what he thought was good out of it and report it to the house, and leave out what he thought was bad.

Novel "Geological" Literature.

WASHINGTON CITY, June 30.—Herbert of Alabama severely criticised in the house Tuesday, the publications of the geological survey, declaring that many of them were totally foreign to the subject over which the bureau had jurisdiction. He instanced a few of them, such as "On Living Oysters," "On the Steel Industry," and "On the Comstock Lode," as illustrating the style of literature brought out by the bureau.

Economy by Indirection Again.

WASHINGTON CITY, June 30.—The senate committee on appropriations has stricken out items in the legislative bill providing for the pay of ten employes in the sergeant-at-arm's office of the senate, thus reducing the force of the office by that number. The annual saving effected by the reduction is $11,200. The pay of the public printer is made $4,500, instead of $4,000 as provided by the house.

Reports in the Pan-Electric Case.

WASHINGTON CITY, June 30.—There will be three reports regarding the Pan-Electric matter presented to the house, four Democrats signing one, favorable to the attorney general; four Republicans signing another, severely criticising that officer as well as Solicitor General Goode, and one Democrat—Hale of Missouri—makes a report of his own, in which he takes the ground that there is nothing in the case.

The General Deficiency Bill.

WASHINGTON CITY, June 30.—The house committee on appropriations has completed the general deficiency bill and reported it. The bill appropriates $6,062,845 based on estimates amounting to $7,448,420. The bill fails to appropriate the $1,500,000 estimated as necessary to meet the expense of the government transportation on non-subsidized branches of land grant railroads.

Two More Pensions Vetoed.

WASHINGTON CITY, June 30.—The president has vetoed the senate bill granting a pension to Newcomb Parker because he has already been allowed a better pension than the bill gives him. A veto of a bill pensioning J. S. Kirkpatrick was also sent in because the case is before the pension bureau now and the president thinks the bureau will do the claimant justice.

Manning Much Better.

WASHINGTON CITY, June 30.—Secretary Manning's private secretary Tuesday received the following dispatch from Hot Springs, Va.:

"Contradict Herald's story about my health. I am much better than when I left Washington. DANIEL MANNING."

New National Bank in Kansas.

WASHINGTON CITY, June 30.—The State National Bank of Wichita, Kas., capital $52,000, has been authorized to commence business.

Washington Park Races.

CHICAGO, June 30.—Tuesday's races at Washington Park course resulted as follows: The 1¼ miles was won by Jim Douglas, Jim Grey second—time, 1:47¼; the 1 mile, by Clonee, Warfellow second, Ed Gilman third—time 1:44; the ⅝ mile by Wary, Gracie D. second, Nellie C. third—time 1:02½; the mile heats by Billy Gilmore, Bootblack second, Sovereign Pat third—time 1:43¼, 1:43½, 1:44; the steeplechase, short course, by Wellington, Bucephalus second, Worth third—time 3:01¼.

The time of Douglas in the 1 1-16 miles race beats the record.

Pullman Appeals to the Supreme Court.

PHILADELPHIA, June 30.—Under a writ of error taken by the defendant Tuesday, the suit of the Central Transportation company against the Pullman Palace Car company, in which the former recently received a verdict for nearly $120,000 for the recovery of rental under the terms of the original lease, is removed to the supreme court. The security to be entered was fixed in the sum of $250,000.

Mrs. Molloy Will Worry the Press.

PEORIA, Ills., June 30.—Mrs. Emma Molloy, the noted female evangelist, who with Cora Lee was indicted in Springfield, Mo., for the murder of Sarah Graham, is in this city for the purpose of commencing suit against The Peoria Journal. She intends to bring suit against a chain of newspapers extending from Springfield, Mo., to Fort Wayne, Ind., but will try with The Peoria Journal first.

Bowman Was in a Close Place.

ROCHESTER, N. Y., June 30.—Edward Bowman, who in order to prove his innocence of the crime of murdering Emery Thayer, at Hamilton station, proved an alibi by confessing that at the time of the homicide he was endeavoring to crack a safe at Honeoye Falls, was sentenced Tuesday morning for the latter crime and another burglary to seven years in Auburn.

A Polite Way to Say It.

At the ball Monistrol has just conducted his partner back to her place. But instead of retiring after the usual compliments he plants himself in front of her with an air of considerable embarrassment.

"Is there anything that you desire, monsieur?" asked the lady, noticing his uneasiness.

"No, mademoiselle—that is—I mean—my crush hat, which has the honor of finding itself actually—upon the same chair as yourself."—New York Graphic.

Wouldn't Use the Dreadful Word.

"And she jilted you, did she?" inquired Rufus of Adolphus.

"Ma deah boy," replied Adolphus, hastily, "never use that dwedful wohd again. Call it a boycott, ma deah boy—call it a boycott."—Judge.

Men and Women

Who are constantly nervous are, in nineteen cases out of twenty, dyspeptic. The twentieth case will be found, upon investigation, to be that of a person who is troubled with symptoms of indigestion. Thinness, unnatural anxiety, peevishness buzzing in the ears, a disposition to start on the sudden closing of a door, tremulousness of the hands—more particularly of the right—show that the nerves are week and unsteady. Hostetter's Stomach bitters strengthen and quiet the nerves. This effect is a speedy consequence of its invigorating and regulating action upon the organs of digestion and assimilation. It enriches the blood, conquers a chronic tendency to biliousness, relieves sick and nervous headaches, and regulates the bowels without griping them. A more trustworthy defense against fever and ague does not exist, and it subdues a tendency to rheumatism, kidney and bladder derangement. Taken before retiring, it induces sound repose.

Four parties of non-union carpenters at work in Chicago and Jefferson were Tuesday assaulted and driven from their labor by gangs from the Carpenters' union. A contractor named Billargoon had his right ear cut off with a steel square.

THE YANKEE YACHT LEADS.

Victory of the Puritan at Marblehead, Mass.

BOSTON, June 30.—The regatta of the Eastern Yacht club, which took place Friday off Marblehead, was one of the most important as well as the most successful events of the sort ever chronicled. The day was perfect; not a cloud obscured the sky, and a good ten-knot breeze blew directly across the bay from the westward, so that the three great sloops of the first class, the Puritan, the Mayflower, and the Priscilla, had an opportunity to exhibit their relative merits which has not been equaled by either of the races held in New York waters. The course, too, was by far the best for the trial, it being a triangle, with legs of five miles, all in deep water and beyond the reach of puffs from the land. The race resulted in a triumph for the old champion, the Puritan, whose wheel was held by Capt. Crocker.

The official time was: Puritan, 3:23:00; Mayflower, 3:28:35; Priscilla, 3:28:57. The little English cutter Clara won in the third-class sloop race.

Making Boycotting of Double Interest.

NEW YORK, June 30.—The trial of Hans Holdorf, one of the Theiss boycotters, was resumed in the court of oyer and terminer Tuesday. Charles Eschert testified that the boycotters demanded that the old orchestra should be discharged, and that members of the Carl Sahm club should be put in their places; also that Holdorf demanded that Theiss should pay $1,000, and threatened unless he did so to break up the business. The defendant was the first witness called for the defense. He said the trouble arose because Eschert, the leader, said he would discharge all members of the Carl Sahm club from the orchestra. After hearing several witnesses for the defence and listening to arguments the jury retired, and after being out twenty minutes returned with a verdict of guilty.

Must Have Grass and Water, and Blood.

JACKSBORO, Tex., June 30.—One hundred and seventy-five thousand head of cattle are being slowly drifted and driven from the day sections of northwest Texas into Jacks county, along the waters of the West fork. Over 200 farmers are armed and say the cattle can not come in. Over fifty-seven herders are already armed and on the field. They say they must have grass and water or blood. Sheriff Reines and posse are on the grounds. Fences are being cut by the cattlemen and protected by the farmers. Several conflicts have taken place up to date. Three men are known to have been killed, while George Carpenter lost his life Tuesday on the Todd pasture.

Chief Justice Waite.

TOLEDO, Ohio, June 30.—Chief Justice Waite, whose former home was in Toledo, is spending a short time here among his old friends and relatives. He is in excellent health, and is dividing his time between receiving calls from friends and writing opinions on decisions of the court referred to him. He will leave for the Yellowstone park shortly, and proposes making a trip to Alaska the latter part of the summer.

FRENCH AND ENGLISH SAWS.

A Comparison of Similar Popular Adages—Some Pertinent Expressions.

We English seem to have selected the mouse as an emblem in our "As dumb as a mouse;" the French have preferred a glass, for they say "As dumb as a glass." We say "As deaf as a post;" the French "As deaf as a pot." "As dull as ditch water" Gallicized becomes "As sad as a nightcap." "Don't count your chickens before they are hatched" is changed into "Don't sell the skin of a bear before having killed it." Instead of "Biting off one's nose to spite one's face," a similarly useless experiment is illustrated by "Spitting in the air that it may fall on one's nose."

The self-evident impossibility in the words, "You can't get blood out of a stone," is represented by "One could not comb a thing that has no hair." (This last also "goes without saying," which, as literally translated from the French, now forms a proverb in our own language.) In the proverb, "One man may lead a horse to the water, but a hundred can't make him drink," our neighbors have not inappropriately selected an "ass" as the illustrative animal. "When you are in Rome, you must do as Rome does," every Englishman will tell you; though few, perhaps, could say why Rome was chosen as an example, and whether it is more necessary when in Rome, to follow the general lead, than in anywhere else, is to us a matter of doubt. To the Frenchman the idea is sufficiently well expressed, however, by impressing on you the necessity of "howling with the wolves."

"Easy come, easy go," though terse and to the point, is in itself scarcely so intelligible as the somewhat longer sentence, "That which comes with the flood returns with the ebb." That "a burned child dreads the fire" is perfectly true, as every one will admit; our neighbors go further than this, and in choosing a "scalded cat" as the object of consideration, speak of it as being in fear of "cold" water even, thus expressing the natural distrust of the cat, after having once been scalded, as extending even to "cold" water. "Money makes the mare go," and "For money, dogs dance".—Chambers' Journal.

New Uses for Asbestos Cloth.

Some years ago, when the disaster at the Ring Strass theater in Vienna—in which so many fell victims to the flames—had drawn attention to the great danger arising from the want of some certain and rapidly applicable means of separating the stage from the body of the theater, the Roman minister of public security issued an order that every theater should be fitted with a fire-proof curtain, capable of entirely isolating the stage from the theater, and he indicated an asbestos cloth curtain as one that would meet the case. Shortly afterward fire-proof asbestos curtains were supplied for all the principal Roman theaters, and although I am not aware of any of these having been put to a practical test, I have no doubt of their ability to resist the action of fire should the case ever arise. In Germany a strong, coarse make of this cloth is largely used for protecting the clothes of men employed in the manufacture of iron and of acids, and of fire-proof clothes for firemen.

I have often wondered whether the fire-resisting properties of asbestos could not be utilized in the form of bags for the carriage of gunpowder, especially in time of war, as I can conceive many cases in which it would prove itself to be of much value. The most recent application of asbestos in this form with which I am acquainted is at the Midland hotel, St. Pancras. There is a balcony entered from the reading room, and in summer this balcony is a favorite resort of smokers. To protect its frequenters from the sun this balcony had a canvass awning, which, through carelessness, has, on more than one occasion, been set on fire, thus endangering the safety of the building. An awning of asbestos cloth for this balcony will soon be put into position. I believe this step has been taken by the railway company so as to secure their premises against the danger of fire.—Prof. James Boyd's Lecture.

Buying and Selling on 'Change.

I have got calling down pretty fine, but sometimes there are some members of the exchange who confuse me very much. I'll not speak of the weak-voiced fellows who, half the time, I can't understand and don't know whether they want to buy or sell. There are some who only want to sell or buy a five and will hold up their whole hand. Now each finger indicates a five and the whole fingers and thumb mean 25,000. Then, again, a trader, generally those who only occasionally have an option order, will sell one five, but get "rattled" and keep on howling "Sell!" "sell!" until, before they know it, they've sold perhaps 50,000. Then they kick, but how am I to know how much they wanted to trade in? Talk about an umpire at a base ball match, I sometimes envy 'em. That's right!

There is one thing I would like to have explained. When a trader wants to sell if he will wave his hands toward me and away from himself—a pushing motion—I'll know he means let it go, but if he wants to buy he must flip his hands toward himself. Why a man needn't give himself away to the balance of the crowd at all. All he's got to do is to work his hand and fingers at me and I'll buy and sell for him to any amount and he'll not have to open his mouth.—Joe P. Carr in Globe-Democrat.

YALE ALUMNI MEETING.

Chauncey Depew Grows Humorous Over His Hoary Alma Mater.

NEW HAVEN, Conn., June 30.—Rev. Edward S. Lines, of this city, called the Yale Alumni meeting to order at 9:30 o'clock Tuesday morning. Hon. Chauncey M. Depew, '56, was chosen to preside and invited Rev. Mr. Hume to offer prayer. Mr. Depew then asked graduates of fifty years standing to take seats on the platform, saying that graduates of that age were usually backward about being put forward; but he knew there was no greater honor than to be asked to sit on the platform in Alumni hall of Yale college. Mr. Depew said that much has been heard about this grand old institution in the past few years and he found that the few who want something done, they knew not what, were making a great deal of noise. He found that one hornet broke up a whole camp-meeting. Yale is so large that she is a whole republic in herself. He said that two great questions were agitating the world to-day. One "grand old man" is striving to right the wrongs of centuries in the Old World; but while he was speaking Monday night in Liverpool the other question of equal greatness was filling the minds of the people on this side of the water. That was how should the vacancy in Yale's corporation be filled? Two of the manifestoes declared that the only way to keep New Jersey in the Union is by their having a hand in the government of this college. New York makes an equally vigorous claim. We are here, said Mr. Depew, on a matter of supreme interest—Yale's election of a president. We look back on Presidents Day, Wools and Porter, with regret, and bidding the latter farewell, we wish him long years of continued usefulness and pleasant life. Mr. Depew spoke in a humorous strain throughout, and his witticisms were hailed with much merriment.

The standing committee on the resolution to change Yale's corporate title from college to university, was reported back favorably to the alumni that it pass, and recommended that the corporation consider the feasibility of the change. The question was then put and carried.

GRANITE STATE DEMOCRACY.

Cogswell Nominated for Governor—The Platform Adopted.

CONCORD, N. H., June 30.—The Democratic state convention was called to order at 11:15 a. m. Tuesday by Chairman Stone, of the state committee. There were 557 delegates present, an unusually large attendance. Col. F. G. Noyes, of Nashua, was made president. Maj. D. B. Donovan, of Concord offered a resolution of sympathy with Gladstone and home rule which was adopted by a rising vote and three ringing cheers.

The committee on resolutions reported the platform. The resolutions congratulate the party on the national triumph of 1884; pledge to President Cleveland united support in his efforts to reform the deep seated abuses the outgrowth of long years of Republican misrule, and congratulate him and the country upon the grand success of his administration. They further declare that federal taxation should be exclusively for public purposes, and demand a readjustment of the tariff upon that basis, with the heaviest taxes on luxuries; reassert the doctrine that the right of labor must be fostered and cherished; demand the repeal of all laws prejudicial to labor; favor the principle of arbitration in the settlement of differences between labor and capital, and call upon the next legislature to enact laws to that end; they demand a ten-hour day for employes in manufactories, weekly payments by corporations and manufacturers, and denounce the importation of contract labor, lawlessness and anarchy, and the Republican party of the state for holding long legislative sessions for partisan purposes and passing prohibitory laws, but refusing to enforce them. The platform also favors a judicious license law. The resolutions were adopted without amendment.

The convention then nominated Col. Thos. Cogswell, of Gilmanton, for governor, who appeared and made a brief address, which was loudly applauded. Resolutions were adopted indorsing Speaker Carlisle and Representative Morrison for their efforts for tariff reform, a state committee was selected and the convention adjourned.

SALISBURY ANSWERS GLADSTONE.

A Very Emphatic Denial of All of Parnell's Statements.

LONDON, June 30.—Lord Salisbury has written a letter denying the assertions of Mr. Parnell that the latter had carried on negotiations with the late Conservative government respecting home rule for Ireland, and denouncing his statements as base fabrications. Lord Salisbury, continuing, says:

"It is false that Mr. Parnell was given any reason to believe that if the Conservatives came into power after the general elections they would give Ireland a statutory parliament; it is false that I showed any leaning toward such a policy, and it is equally false that Lord Carnarvon urged upon the cabinet the granting of such a concession. The statement is also false that the cabinet did not refuse to extend the concession of home rule to Ireland until after the elections went against us."

Salesbury denies also, with great indignation, the statement that after the result of the elections became known the cabinet altered its intentions. "The assertion contains not the smallest element of truth," he says, "because the cabinet never had the slightest inclination toward the establishment of a statutory parliament in Ireland. The story that the land purchase bill was passed in deference to a wish expressed at an interview on Aug. 1 is impossible of truth, because the bill had already passed the house of lords, and the government was publicly pledged to its terms. The government resolved upon the land purchase scheme as soon as it entered office, a month before that date."

To Test an Important Question.

WEYMOUTH, Mass., June 30.—All the lasters at Richard G. Haskel's shoe factory struck Tuesday owing to the employment of a non-union man, who, it is charged, was put into the factory to test the question of the firm's right to employ "scab" help. The strike will throw out several hundred hands, and cripple one of the largest factories in the country.

A NEW PHONOGRAPH PERFECTED.

An Intrument To Be Used During Court Trials.

Some electricians in this city have been at work for several months to perfect a phonograph which can be used with such accuracy as to be an aid in reporting with precision the proceedings of courts and public assemblies. It is said that a state of perfection has already been attained which will warrant the introduction of this instrument in courts of justice. When the phonograph is perfected it will be a great help to stenographic reporters in one way and a great rival and hindrance in another way. One of the machines can be taken into court, for instance, and all of the proceedings will be recorded by it. At the close of the day it can be taken to a room and gauged to talk at any rate of speed—at thirty words a minute, which can be written out by an ordinary long-hand writer. If it is desired to get the proceedings transcribed as fast as they occur new cylinders are put in the phonograph as fast as the proceedings are written out. For instance, the long-hand writers can put in a cylinder and let it remain ten minutes, then take it out and put in another, and transfer the cylinder which has the proceedings upon it to another instrument, and it is made to repeat the proceedings with accuracy, and, at the expiration of its term, is replaced in the phonograph and the other cylinder taken from it, and so on.

One of the great difficulties the scientists have encountered is in securing the distinction of tone and voice. Heretofore the phonograph has not been sufficiently distinct in the pitch of the voice to make one voice distinguish itself from another if they are similar in volume and tone. It is believed, however, that the instrument will be perfected within a short time so that anyone who has heard a number of voices in a room can readily distinguish them from the sounds the phonograph will give out. It is the distinguishing of one voice from another that gives the names of the speakers. For instance, if the phonograph is used to record the proceedings of a legislature it will not, of course, have the names of the persons participating in debate, and the persons translating from the record of the phonograph will have to place the speakers by the tone of the voice.

It is said that some of the official reporters intend trying the phonograph within a short time and determining how it will work in public debates. In event it fails they will have the proceedings by the usual methods and no risk will be run. When the phonograph is perfected the stenographers intended to use it in their work as a safeguard. By its assistance they will be enabled to have everything that is said in the room, and a number of persons speaking at one time and the rapidity of their speech will be no inconvenience, as the phonograph will catch everything that is said. It will be of more use as an amanuensis than anything else, enabling one to dictate any amount of correspondence to the machine and leaving it so that any one can transcribe it, because the machine can be set to report the dictation at any rate of speed.—Washington Cor. Minneapolis Tribune.

SKIN TORTURES —AND— BLOOD HUMORS!!

Humiliating Eruptions, Itching and Burning Skin Tortures, Loathsome Sores and every species of Itching, Scaly, Pimply, Inherited Scrofulous and Contagious diseases of the Blood, Skin, and Scalp, with loss of Hair, from infancy to old age, are positively cured by Cuticura, the great Skin Cure, and Cuticura Soap, an exquisite Skin Beautifier, externally, and Cuticura Resolvent, the new Blood Purifier, internally.

COVERED WITH SORES.

I have been afflicted since last March with a Skin disease the doctors called Eczema. My face was covered with scabs and sores, and the itching and burning were almost unbearable. Seeing your Cuticura Remedies so highly recommended, concluded to give them a trial, using the Cuticura and Cuticura Soap externally, and Resolvent internally, for four months. I call myself cured, in gratitude for which I make this public statement.

Constitutional Catarrh.

No single disease has entailed me more suffering or hastened the breaking up of the constitution than catarrh. The sense of smell or taste, of sight, of hearing, the human voice, the mind,—one or more, and sometimes all, yield to its destructive influence. The poison it distributes throughout the system attacks every vital force, and breaks up the most robust of constitutions. Ignored, because but little understood, by most physicians, impotently assailed by quacks and charlatans, those suffering from it have little hope to be relieved of it this side of the grave. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into the hands competent and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of his Radical Cure has won the hearty approval of thousands. It is instantaneous in affording relief in all head colds, sneezing, snuffing and obstructed breathing, and rapidly removes the most oppressive symptoms, clearing the head, sweetening the breath, restoring the senses of smell, taste and hearing, and neutralizing the constitutional tendency of the disease towards the lungs, liver and kidneys.

Sandford's Radical Cure consists of one bottle of the Radical Cure, one box of Catharral Solvent, and Improved Inhaler; price $1.

Dr. BIGGER'S HUCKLEBERRY

CORDIAL

The Great Southern Remedy for all

BOWEL TROUBLES

AND CHILDREN TEETHING.

There are very few who do not know of this little bush growing alongside of our mountains and hills; but very few realize the fact that the little purple berry, which so many of us have eaten in most every shape, there is a principle in it having a wonderful effect on the bowels. Dr Bigger's Huckleberry Cordial is the GREAT SOUTHERN REMEDY that restores the little one teething, and cures Diarrhoea Dysentery and Cramp Colic.

When it is considered that at this season of the year sudden and dangerous attacks of the bowels are so frequent, and we hear of so many deaths occurring before a physician can be called in, it is important that every household should provide themselves with some speedy relief, a dose of which will relieve the pain and save much anxiety. Dr. Biggers' Huckleberry Cordial is a simple remedy which any child is pleased to take.

Brieflets.

—Another dry day.

—Everyone complains of being dry.

—Washington street gets the street railway track.

—Good weather for the ice dealers. Gateley is smiling.

—Wisconsin Lodge No. 14, I. O. O. F., occupy Odd Fellows' hall this evening—regular weekly meeting.

—A number of pupils from the high school room picnicked up the river yesterday, returning late last evening.

—The Gypsies spoken of in yesterday's Gazette are in camp at the "forks," just beyond the city limits on Milton avenue.

—A number of Janesville people are in Beloit to-day, and others intend to go down this evening to be present at the Senior concert.

—The Janesville ball team has been considerably strengthened of late, and will meet the Evansvilles next Monday afternoon. The game will be held on the fair grounds, admission being fifteen cents.

—John Hermon, of Beloit, who was on trial in the municipal court for horse stealing, has been released, as the jury could not agree on a verdict. Most of the ballots stood five for conviction and seven for acquittal.

—The paving of the car track on Milwaukee street will be taken up again as soon as a fresh supply of cedar blocks arrive. Where the track is laid in residence streets no pavement is to be put in the earth being simply replaced and beaten down.

—Prof. C. W. Merriman, who was shot in the neck on Monday morning at Beloit by burglars, remains in a very critical condition. Owing to his unfavorable condition, the surgeons have not probed the wound to find the ball, which is lodged somewhere in his neck.

—It is now very nearly settled that West Milwaukee street will be repaved with cedar blocks, similar to the roadbed of the street car line. It is said that this kind of pavement will cause no inconvenience in laying water or gas pipes, and that the property owners will not be compelled to wait until the water mains are laid.

—With the aid of Diamond Dyes E. B. Heimstreet, the North Main street druggist has succeeded in producing some very fancy colored poultry, and he now has a purple and blue hen with her brood of brightly tinted chickens in one of his show windows. They present a strange example of the hues that some animals assume when dying and prove an excellent drawing card for the enterprising druggist.

—The Wisconsin press is making Janesville a rather liberal city just at present. The Milwaukee Sentinel this morning says that the Janesville board of education has asked the common council to appropriate $120,000 for school purposes. This will be appreciated when it is understood that the city charter requires the council to appropriate whatever sum the school board may ask within the limits of said charter.

—Last evening Mr. L. C. O'Brien left this city with a car load of heavy horses for Blue Hill, Nebraska, the horses being consigned to Messrs. Mowery & Cushing railway contractors. The horses were "picked" up in this vicinity, Mr. O'Brien paying special prices for some of the extra choice animals. It is said by parties who were at the Northwestern depot last evening while the horses were being loaded on the car, that a finer lot never left this city for Blue Hill.

—In another column will be noticed the advertisement of Dr. O. A. Miner, which will be read with some curiosity and doubtless some suspicion, owing to a prejudice which exists against traveling physicians. Dr. Miner has located in Janesville for the summer. His treatment, which is largely magnetic, was adopted by him two years ago. He has treated a large number of chronic cases with marked success, and his rooms are thronged daily with sufferers. His office is at the corner of High and Cherry streets, near the labratory.

—St. Patrick's T. A. & B. society will give one of their always-pleasant dancing parties, at the Guards' armory, on Monday evening, July 5th, Anderson's orchestra furnishing the music. The T. A. & B. society has done much good in our community, and should be liberally patronized on this occasion. Assist a worthy cause, and at the same time evince a patriotic spirit, by lending your presence at the armory on the evening of "the day we celebrate."

—An amateur theatrical company has been organized in this city and will give their initial performance next Friday afternoon. George Ford is business manager and in the first play to be presented, that of "a Mountain Pink", George Burdick will star in the part of "Esmeralda". O. O. Ford's barn on North Jackson street has been fitted up as an opera house, and as the company carry their own scenery and stage settings, something unusually fine may be looked for. Reserved seats in the gallery, family circle, parquette or pit will be five cents, and may be obtained at the box office.

—Mr. L. A. Torrens has been engaged by the Choral Union and at the meeting last night it was decided that the meetings next fall should begin about the first of September. To strengthen the Union honorary members will be admitted at the rate of $5 for annual dues, which will entitle them to membership certificates and concert tickets at the annual and semi-annual concerts. This is a wise measure and will afford to the friends of the society an opportunity to express practical sympathy and support. The Union is in a more flourishing condition than many suppose. There is one hundred dollars still in the treasury after all the bills have been paid, and the members have never been more harmonious or enthusiastic than at the present time.

The Weather.

At seven o'clock this morning the thermometer indicated 68 degrees above zero. Clear with north wind. At one o'clock p m. the register was 94 degrees above zero. Clear with north wind. For the corresponding hours one year ago the register was 53 and 78 degrees above zero.

Summer shawls of all kinds and description, at popular prices, at Bort, Bailey & Co's.

Married in June.

The home of Mr. and Mrs. Arthur Brittain, of Beloit, was the scene of a merry wedding party yesterday, the occasion being the marriage of their daughter, Julia, to Mr. J. B. Doe, Jr., of this city. The ceremony was performed by the Rev. Fayette Royce, D. D. rector of St. Pauls church.

The bride is recognized by the good people of Beloit, where she has long resided, as a lady of rare attainments and culture, possessing the graces of mind and heart which have won for her an enviable position in the social circles of the state line city.

The groom needs no introduction or word of commendation to the many friends of his old home. The worst thing that a republican journal can say of him is, that he is a democrat with a flattering pedigree. Under an administration of the same political faith, furnishing a matrimonial example, in its chief executive, it is very fitting that an admiring and zealous constituent should go and do likewise.

Mr. and Mrs. Doe will be heartily welcomed at home, with all the glad congratulations that cluster about the happy event called matrimony. May they live to the ripe old age of the ancient Methuselah, realizing that "Its Christmas all the year round." After making a little tour of the state, they will return to Janesville, occupying rooms at the Hotel de Myers.

Personal.

—Bro. Ben Smith, of Oshkosh, is in the city to-day.

—Dr. S. A. Pond is home from an extended trip through the Northwest, looking after his interests in mail routes.

—Messrs. T. J. and Robert Cairns, Jr., of Iowa, arrived in the city this afternoon, and will spend a few days with old friends.

—Mr. and Mrs. Robert Dearborn, of Kansas City, Mo., are in the city, guests of Mr. Dearborn's sister, Mrs. D. W. Watt, South Main streo.

—Dr. Frank J. Pember has resigned his position as second assistant physician at the Northern Hospital for the Insane, intending to engage in private practice at Chicago.

—Captain Frank Wilson, of Huron Dakota, has arrived in the city, and will spend the Fourth of July with his old friends here. Frank, who was formerly a member of the Bower City Rifles, is now captain of Company C, Dakota National Guard, at Huron.

—Mr. J. W. Dickinson, of Milwaukee is in the city, representing the Dickinson Universal eradicator, this preparation is warranted to remove grease spots or any other soiled spots from clothing or carpets with one application. It is easily applied and perfectly injurious. Mr. Dickinson will spend a day or two in the city and the eradicator will be handled by Messrs. Conners & Co., at their grocery on West Milwaukee street. Call and try a sample box.

—F. O. Bailey and S. E. Dudley, of this city, will start out to-morrow for a trip through the country their objective point being Florida. They will travel in a platform spring wagon, carrying a tent and camping outfit with them. The bottom of their wagon is fitted up with closets with trap doors, and in these closets is stored a complete set of photograher's instruments with all the necessary chemicals. In fact the trip is to be made principally to secure views of the country. The young men expect to travel about thirty miles a day but will camp out occasionally for a week at a time. If nothing happens they will reach Florida early in December, and will spend the remainder of the winter there finishing up their work which, as we have said, is the collection of material for stereoscopic views.

A Narrow Escape.

Two Germans living near Johnstown had a narrow escape from being severely injured by a runaway last evening about six o'clock. They were driving down East Milwaukee street, and when near Galbraith's barn Joe Apelwater, the one who was driving, struck the horse twice with a whip. The animal kicked over the thill, and they thoroughly frightened dashed down toward Main street. Reaching the corner he turned sharply, and the buggy to which he was harnessed struck with a crash on the heavy blocks of lime stone that had been left for the use of the street commissioner. The two men were thrown out with terrible force and those who saw the accident rushed up expecting to find them insensible. Luck seemed to favor them, however, for neither were severely hurt; in fact one of them was on his feet and at the horse's head before the frightened animal could get clear from the wreck. The other had his shoulder bruised considerably and went up to Dr. Henry Palmer's office for repairs.

OPERA HOUSE OR RINK?

Which Will be Finished First—The Rink to be Made Into a Theatre.

The Janesville people who enjoy theater going have, in years past, been made to suffer many inconveniences. It now begins to look a little as though the town would have a first class opera house, and they are congratulating themselves accordingly. As stated in the Gazette a few days ago, J. G. Rexford and Richard Valentine have been in Chicago securing figures relating to the alteration of the Riverside rink into a theatre. They have returned bringing with them a plan that is to be presented to the stockholders of the rink company at their next meeting. The estimate provides for a stage about forty feet deep at the east end of the building, with dressing rooms and all other necessary features. There will be twelve sets of scenery. An inclined floor will be put in over a part of the west half of the surface and the entire surface will be seated with opera chairs of the latest patterns, these being the most desirable seats in the house The benches along the side will be left and will furnish the lower priced sittings. The estimate also provides for two prosceuium boxes fitted up in good style. The cost will be about two thousand dollars—not a very large sum when everything is taken into account. It is not known when the meeting of stockholders to consider the proposition will take place, but it is to be hoped that something of this kind will be decided upon when they do come together.

At Myers' opera house, also, a partial revolution is predicted. Whether it will take place is the next question. Mr. Myers says that before the next season opens, his house will undergo a complete transformation. The roof will be extended until it rests on the wall that was put up last summer, instead of on the one which is now in use. The opera house, thus widened will then be put down to the ground floor and newly fitted up in every detail. If this plan and the one regarding the rink are both carried out, Janesville will have two very excellent places of amusement. Whether they will, or will not be, remains to be seen. Which will be commenced first?

STREET CAR BARNS.

They are Located on East Milwaukee Street.

The street car barns have finally been located on the building lots on East Milwaukee street, next west of the large barn of Galbraith Brothers. An agreement was yesterday made between the street railway company and Mr. Peter Myers for the immediate building of the barn, the car company taking a lease for a term of years. The barn is to be fifty feet front on East Milwaukee street, and eighty feet deep, built of brick and will be two stories high. Mr. Edward Ratheram has taken the contract to build the barn, and agrees to have it completed for use in sixty days.

Workmen commenced removing the old buildings last evening, intending to move both "rookeries" around the corner to Bluff street, where they will find a temporary resting place on a lot owned by Mr. Myers. The new barn will be constructed of white brick.

The track of the car company will be extended to the barn, the whole of which will be used by the car company. This new building will be a decided improvement to that part of the city, which has many substantial buildings of which the city is proud.

G. A. R. Picnic.

Under the auspices of the Auxiliary Corps of the W. H. Sargent Post, at Pope's Springs, on Monday, July 5th. The ladies of the corps have chartered the steamer Enterprise, and will hold a basket picnic. Refreshments will also be served on the ground. Dancing all the afternoon. Good music in attendance. Round trip 25 cents.

Wanted a Heavy Man.

Through the coating of coal dust that covered his face, as he leaned against a cart in a prominent coal yard Saturday, could be seen an expression of woe.

"Why so sad?" a wayfarer asked of the disconsolate coal cart driver.

"They've got a new man in my place."

"What was the matter and how did it happen?"

"Well it was this way; I was sitting on my cart yesterday while the load was being weighed, when the boss came out and said my services would be no longer required."

"But there must have been some reason for your discharge."

"There was," he mournfully replied; "the new man weighs seventy-five pounds more than I do."—*Exchange.*

Fairfield.

—O. J. Serl & Son are now taking in from fifty to seventy five dollars worth of eggs per week. They pay ten cents a dozen right along.

—It was very naughty in Dame Rumor to say that the "Hornet Band" furnished the music at church last Sunday. Sorry we were not there to take it in.

—The rain and hail storm that passed over this place on Thursday last was quite severe and did much damage. Several large fields of corn and barley were entirely destroyed and farmers are busy replowing their fields and sowing them to buckwheat. The greatest loss we hear of was in the Stewart and Hollister neighborhood.

—Quite a number of our young people are at Milton this week at commencement.

—The wool market is active at present, several buyers being in town. H. Foltz, of Clinton, secured the best clips, paying 23 to 28 cents.

—The Ladies' Christian association will meet with Mrs. Charles Robson on Wednesday afternoon, July 7th.

—Several of our young people attended the festival at Johnstown last week and report a good time.

One Minute Coffee.

We have just received the finest Mandheling Java coffee ever sold in Janesville, at 33c. We have also received a special mill for powdering coffees, and are ready to powder coffees of all grades when so ordered.

THE CHINA TEA STORE.

TOBACCO.

What Has Been Done Here and Elsewhere.

Favorable Reports from New York, In General.

JANESVILLE.

The market is now very quiet but a much better feeling is evident among dealers than has prevailed before during the season. They claim that prices have now reached bed-rock and will now begin to tend upwards. In that case a general jubilee will be held by every one interested in the trade.

Every kind of leaf has been comparatively quiet. Fifty cases of '85 were sold to Indianapolis parties by Conrad Bro's, terms being private. Excepting for that no sales of importance have reached us. The dry weather will do considerable toward reducing the acreage, although the amount of tobacco planted will not be much less than last year after all. Watering out continues to be the principal work of the growers, and it is claimed that plants set that way oftentimes grow better than when set after a rain.

IN GENERAL.

The defeat of the Morrison-Hewitt tariff bill brings with it the defeat of the clause relating to the duty on imported wrappers, a clause that was put on solely to draw the votes of a few members from the tobacco growing regions. It provided for about the same state of things as Assistant Secretary Fairchild's ruling had already established, and until that order is withdrawn there is really no need of legislation in regard to the matter. Knowing ones among the New York importers claim that a bill is soon to be introduced in the senate providing for a uniform reduction of the tariff to thirty-five cents. It is very doubtful if any bill bearing on this subject could be considered and passed in the short time now remaining, as it seems to be generally understood that congress will adjourn in the early part of July. That leaves congressmen very little time to attend to unfinished business of importance and to carry through the many little bills of personal interest to individual congressmen, which are always rushed through in the last days of congress, and there is a strong probability that no further legislation regarding imported tobacco will be attempted during this session. Secretary Fairchild's ruling is giving the dealers in Sumatra much trouble and the imports have dwindled to an insignificant figure.

NEW YORK CITY.

A repetition of last week's activity is to be noted. Excepting the sales of several hundred cases of medium '85 Wisconsin said to have realized 10 to 14 cents all goods sold were old stock. The '83 Pennsylvania played the most prominent part, about 1,000 cases being disposed of at 5½ to 11 cents. '84 State seed came next figuring with some 800 cases at 7½ to 12 cents; 600 cases '84 Wisconsin Havana seed found buyers at an average of 12½ cents. The balance of the sales were '80, '81 and '82 Pennsylvania at from 5 to 11½ cents. Old filers continue in excellent demand realizing from 9 to 12 cents; fancy fillers, pseudo Havana, bring from 15 to 20 cents. There are indications that sampling of new wrappers will be begun at an early date.—*United States Tobacco Journal.*

NEW YORK.

Never, to our knowledge, have the growers had a better opportunity to set tobacco than during the past week. Plenty of rain has fallen, and the weather has been delightfully cool. From all we can learn nine-tenths of the crop is in and growing finely.

Buyers are still in the field for the 1885 crop, and sales are constantly taking place. Prices range about as they have heretofore.—*Baldwinsville Gazette.*

PENNSYLVANIA.

There was a very respectable boom in the home market during the week, the entire sales footing up at least 1,500 cases. A good deal of this was old tobacco, which the late owners were tired of holding any longer, and were willing to let slide. It is safe to say no astonishing amount of money was made on these goods. They were, however, a disturbing element in the trade, and we are glad they are gone. Plenty of rain has fallen during the week, and the weather has again favored the farmers. The crop is nowset out and the condition of the crop at this season has seldom been more promising.—*Lancaster New Era.*

OHIO.

We are pleased to notice a more active spirit in this market, all sorts sharing in the inquiry, though Little Dutch led the transactions. Prices remain low—6 to 10 cents for all varieties of old and new leaf in hands of planters.—*Miamisburg Bulletin.*

Milton.
